REQUEST FOR RECONSIDERATION/OTHER 11. ☑ The request for reconsideration has been considered by See Continuation Sheet.	it does NOT place the application i	n condition for allowa	nce because:
12. \square Note the attached Information Disclosure Statement(s).	(PTO/SB/08) Paper No(s)		
13. Other:			

Continuation of 11. does NOT place the application in condition for allowance because: As to claim 7, the applicant argues that Yoshida's structural configuration in Figs. 21-24, 27, 29, 31, 33, 41-43, 46-48, and 50-52 does not allow for adjustment of the contact angle of the probe pins 3aE via the conpression arm 112, and bolt 130.

In response, the examiner respectfully disagrees with the applicant about the issue for the following reasons: In figures 20-24 of Yoshida's structural configuration, the elastic film 400E overlaps the resin film 201E and presses against front end portions of the contact pins 3aE. The elastic film 400E is sandwiched between the first projection 112E (compression arm) of the top clamp 111E and the resin film 201E and projects over the front end portions of the contact pins 3aE, in order to press the front end portions of the contact pins 3aE against terminals of the LCD 90 when the front end portions of the contact pins 3aE are bent in the S, S1 and S2 positions (col. 25, lines 30-40). Therefore, the bolt 130E in combination with 112E and the elastic film 400E as shown in Figs. 20-24 would be allow for adjusting of the contact angle of the end portion of contact pins 3aE. Furthermore, it would have been obvious to a person having an ordinary skill in the art at the time of the invention was made to recognize that the bolt (130E) in combination with the compression arm (112E) and the elastic film 400E press the front end portions of the contact pins 3aE bent in the S, S1, and S2 positions (as shown in Figs. 20-24) for good contact to the terminals of DUT (col. 25, lines 30-40). Therefore, the claim 7 and the other claims depent on the claim 7 still unpatentable over Yoshida as indicating in the last Office Action.
